

## Why is GreenShareCar™ offering corporate sponsorships?

For most people a car is a symbol of adulthood and freedom. That is until you have to pay off the monthly installments, insurance, registration, fuel and constant devaluation... GreenShareCar aims to educate the community and in particular the younger generation on alternatives to direct car ownership. Our work will go a long way in assisting our already congested roads and cut emissions. GreenShareCar is both innovative and a sustainable form of transport. To get this message across we would like sponsors to support our ongoing work. Our vision is to have a share car included in all future medium to high density property developments,, we will do this by educating local councils about the positive impacts of car sharing in our communities. A GreenShareCar sponsorship is both tax deductible and a way of aligning your company with a product and service of the future. Select from one of the following corporate sponsorships.
